June 2023

TAI Club News & Information

Combat Wings Update

Well, David Holt received all the parts and kits to build 10 Crash Test Hobby 57" Bandit flying Wings for combat and got them distributed to the Combaters. Assembly has started and I know of one (Rob's) that is flight ready. There is a non-formal target date to complete the builds by mid-June so that we can... Let the Mid-Air Collisions began!!

Weed Killing the Runway First

The weather is not cooperating in letting us put weed killer on the runway which in turn delays us from plugging, rolling and seeding. Rob and Fred are scheduling and pulling together a few members to spread six 20lbs. bags of weed killer in a week or two. Then, we will need to wait 4-6 weeks after that to do the rest. Stay tuned.

WebMaster has Help

Larry Neiman has volunteered and helping Danny Voyles with some of the responsibilities of maintaining our TriadAero.net website. Most members do not realize the hours and amount of work that goes into this to keep it up to date and functioning properly. If you have not visited our website in a while, go take a look. There are massive amounts of information, build logs, pictures, AMA updates, mowing schedules, forms, meeting minutes and too much more to list. Just click on the word "Home v" to open up a pull down with multiple selections or hover over the picture in the upper LH and see the Abbotts Creek Hydrometer (at about 7 ft, we are flooded). We are lucky as a club to have two dedicated guys overseeing our website. Thank You!!

TAI Swap Meet Gets District IV Recognition

In the District News IV section of Model Airplane Magazine, Dist. VP - Jay Marsh & Dist. Asst. VP Rick Cawley presented an article about our TAI Annual Swap Meet including pictures. If you haven't seen it yet, it's an excellent read and is very favorable to our club!

AMA Advancement

As you know we are an AMA Gold Leader Club by meeting AMA's standards and from the things we provide as a community-based organization but the AMA has many programs to help you in your personal achievements in the RC hobby and in the AMA. The AMA website has information and the test to become an AMA Certified, Event Manager, Contest Director, a Leader Member and more. Let me know if you have interest and I will gladly help.
